

EL BERN S. BERDERA

FULL-STACK WEB DEVELOPER

Butuan City, Philippines | 0981-532-4052 | elbernberdera@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-stack web developer with hands-on experience building Django and Laravel applications, REST APIs, database-backed internal tools, and Python automation solutions. Skilled in Python, PHP, JavaScript, PostgreSQL, MongoDB, and MySQL, with practical experience in backend development, data integration, workflow automation, debugging, deployment, and technical documentation.

TECHNICAL SKILLS

Languages: Python, PHP, JavaScript, SQL, HTML, CSS

Frameworks: Django, FastAPI, Laravel, Next.js

Databases: PostgreSQL, MongoDB, MySQL

Backend & Automation: REST APIs, API Integration, Data Pipelines, Workflow Automation, Selenium, Firecrawl, Windmill

Tools: Git, GitHub, Render, Google Cloud, Directus, Adobe Photoshop, Adobe Illustrator

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer & Data Pipeline Engineer

Independent Contract

Remote - Butuan City, Philippines

June 2026 - Present

- Build web applications, backend APIs, internal tools, database integrations, and automated data workflows for remote teams.
- Improve pipeline reliability through validation, micro-batching, retry handling, structured logging, and idempotent database operations.
- Investigate API, database, deployment, package compatibility, and data-persistence issues; produce technical documentation and handoffs.

E-commerce Operations & Technical Virtual Assistant

FaceLove

Remote

May 2025 - December 2025

- Managed orders, shipment exceptions, refunds, returns, and customer inquiries across high-volume e-commerce workflows.
- Coordinated with fulfillment providers, logistics companies, customers, and internal teams while maintaining accurate operational records.

Web Development Intern

Department of Information and Communications Technology - Caraga Region

Butuan City, Philippines

June 2025 - August 2025

- Developed a Django task monitoring system with assignments, statuses, attachments, administrative controls, and role-based dashboards.
- Contributed to a Laravel recruitment platform with employer/applicant accounts, job postings, resume uploads, application tracking, filters, and notifications.

IT Support & Network Automation Intern

AFTECH IT Solution

Butuan City, Philippines

January 2025 - March 2025

- Developed a Python and Selenium script to automate repetitive router and modem configuration tasks.
- Supported fiber-optic splicing, LAN planning, hardware setup, network troubleshooting, and technical documentation.

SELECTED PROJECTS

Task Monitoring System - *Django, MySQL*: Built a role-based platform for assigning tasks, tracking progress, managing attachments, and monitoring completion statuses.

DICT Job Portal - *Laravel, MySQL*: Implemented recruitment workflows for employer/applicant accounts, job postings, resume submission, application tracking, filtering, and notifications.

Network Configuration Automation - *Python, Selenium*: Automated WAN, WLAN, SSID, security, and password configuration for repetitive router and modem setup workflows.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology - Saint Joseph Institute of Technology, 2026

Certifications: Python Programming Essentials (DICT, May 2023); Understanding Web 3.0 (DICT, June 2025); Web Accessibility Audit Course (DICT, August 2025).

Languages: English, Filipino/Tagalog, Cebuano
